

Passenger Safety Policy

Overview

To carry passengers in such a manner that no danger is likely to be caused

Purpose

To ensure passenger safety and comfort.

Policy

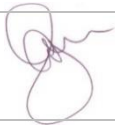

Passengers may only be carried with the authorisation of the company. If authorisation is given, any passenger must use the factory fitted passenger seat only and the factory fitted seatbelt must be utilised. If a passenger is in the vehicle, they must not obscure vision and must be asked not to distract the driver whilst driving before the start of any journey.

Passengers should not attempt to get in the vehicle while it is moving and not attempt to alight until the vehicle has stopped and the engine switched off. Passengers are not to be carried in the payload area and animals or children should not be carried. Hitch hikers should not be picked up.

Revision

The Company will make all employees aware of this Company Policy.
